DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:
 - a. The species of the first aspect as disclosed in the specification on pages 2 and 3;
 - b. The species of the second aspect as disclosed in the specification on pages 3 and 4;
 - c. The species of the third aspect as disclosed in the specification on pages 4 and 5;
 - d. The species of the fourth aspect as disclosed in the specification on pages 5 and 6;
 - e. The species of the fifth aspect as disclosed in the specification on pages 6 and 7;
 - f. The species of the sixth aspect as disclosed in the specification on page 7;
 - g. The species of the seventh aspect as disclosed in the specification on pages 8 and 9;
 - h. The species of the eighth aspect as disclosed in the specification on page 9; and
 - i. The species of the ninth aspect as disclosed in the specification on pages 10 and 11.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
